The King, according to an omeias statement issued by the Greek government, expressed his loyalty to the Entente Allies, and the French Minister assured the monarch that the Entente desired to establish friendly relations with the Hellenic government on the basis of maintenance of benevolent neutrality, in conformity with previous

neutrality, in conformity with previous agreements.

The communication denied that the French government had demanded the transfer of the Greek military forces from Thessaly or the surrender of all war materials. King Constantine never declared, it is asserted, that he was prepared to break off relations with the Entente.

### "Hold Out to the End; God Is With You," Kaiser Tells Somme Army.

Berlin, Oct. 25 .- Emperor William, on his recent visit to the troops on the Somme front, in France, made the following speech, according to the correspondent of the "Tageblatt":

"Comrades, following an impulse of the heart, I have hurried to you from the East front to bring you the greetings of your comrades there and the thanks of the Fatherland for the four months' hard struggles on the Somme and for the heroic manner in which you have fought. The world's history knows no parallel for the struggles in which you are participating and for the greatness of your deeds. For centuries these battles of the Somme will stand as a blazing model for the conquering will of a united people.

"In you that German will finds expression under whatever circumstances to prevent the enemy from prostrating us to the ground and to stand firm against French insolence and British stubborness. From all German regions you stand like a metal wall of German sense of duty and devoted valor, fighting to the last
